Detailed Action

This application is in condition for allowance except for the following formal matters:

Applicants filed a Sequence Listing on 9/9/03. The Sequence Listing does not comply with the Sequence Rules for the following reasons.

This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.821(a)(1) and (a)(2). However, this application fails to comply with the requirements of 37 CFR 1.821 through 1.825 for the reason(s) set forth below or on the attached Notice To Comply With Requirements For Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures and attached Raw Sequence Listing Error Report. Also, it is noted that Figures 2-13 contain nucleotide and/or amino acid sequences, said sequences must be identified by the appropriate SEQ ID NO: identifiers in the Brief Description of the drawings section of the specification.

Applicant must comply with the sequence rules, 37 CFR 1.821 - 1.825. Failure to comply with these requirements will result in ABANDONMENT of the application under 37 CFR 1.821(g). Applicant is requested to return a copy of the attached Notice to Comply with the reply.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
